PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building full-stack and microservices-based applications (Spring Boot, Spring Cloud, REST APIs, React, MySQL) and currently training aspiring developers in full-stack technologies. Delivered six end-to-end projects, including a microservices fintech platform, a role-based recruitment portal backend, and a proctored online assessment platform. Seeking a Full Stack Developer role to build scalable, production-ready web applications.

TECHNICAL SKILLS

Languages: Java (Core & Advanced)

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap

Backend: Spring Boot, Spring Cloud (Eureka, Gateway, Config Server), Spring Security, Hibernate JPA, REST APIs, JDBC, Servlets, JSP

Database: MySQL, PostgreSQL

Tools/Other: Docker, Kafka, JWT, Maven, Git

EXPERIENCE

Java Full Stack Learning Enabler — Digit IT, Hyderabad *July 2026 – Present*

- Deliver hands-on training in Java Full Stack development (Core Java, Spring Boot, Hibernate, REST APIs, MySQL, React) to student cohorts
- Mentor students through real-world coding projects, debugging, and industry best practices, improving their project completion readiness

PROJECTS

Interview Readiness – Student Interview & Assessment Platform — *Internal Project | Digit IT*

- Developed a full-stack platform to streamline student interview preparation, online assessments, evaluation, and performance tracking, reducing manual assessment efforts
- Built Spring Boot REST APIs, JWT authentication, JPA, PostgreSQL, and React.js with separate Admin/Student workflows for tests, questions, assignments, results, and analytics
- Implemented timed assessments and browser-based proctoring with camera, microphone, screen sharing, fullscreen and violation monitoring, along with automated test submission and result generation

Tech: Java, Spring Boot, Spring Security, JWT, JPA, PostgreSQL, React.js

PayMind AI – Simulated Personal Finance/Banking Platform

- Architected a 10-service microservices fintech backend with API Gateway and Eureka service discovery for dynamic request routing
- Implemented JWT-based authentication (access + refresh tokens) via a dedicated Auth Service, enforced across User and Account services to scope data to the authenticated user
- Designed a 10-table MySQL schema with cascade/referential-integrity rules and indexing; containerized local infra (MySQL, MongoDB, Redis, Kafka) via Docker Compose

Tech: Java, Spring Boot, Spring Cloud (Eureka, Gateway, Config Server), MySQL, JWT, Docker, Kafka

TalentForge – Recruitment Portal Backend / Job Application Management System

- Built a Spring Boot/MySQL backend with JWT-based authentication (access + rotating refresh tokens, BCrypt password hashing) and role-based authorization across Admin, Recruiter, and Candidate user types using Spring Security @PreAuthorize guards
- Designed 9+ relational entities (Users, Companies, Jobs, Applications, Skills) with proper foreign-key relationships, DTO-based API contracts, global exception handling, and a standardized JSON response envelope across 25+ REST endpoints
- Engineered an application-status state machine enforcing recruiter workflow transitions (Applied → Shortlisted → Interview Scheduled → Offered), plus paginated/filterable job search and applicant-review endpoints

Tech: Java, Spring Boot, MySQL, Spring Security, JWT

ShopEase – E-Commerce Web Application

- Built a full-stack e-commerce platform with user authentication, product management, shopping cart, and order processing using MVC architecture
- Developed RESTful APIs with Spring Boot and Hibernate JPA, integrated with MySQL

Tech: Java, Spring Boot, Hibernate JPA, REST APIs, MySQL, HTML5, CSS3, Bootstrap, JavaScript, Maven

Video360 – Video Streaming Platform — *Internship*

- Developed a YouTube-style web application with secure user authentication and video streaming
- Built a responsive UI focused on performance and usability using React.js and Bootstrap

Tech: React.js, Bootstrap, CSS

Kakatiya University Website

- Developed a responsive college website providing information on courses, faculty, departments, payments, events, and admissions, with database-backed functionality for inquiries and academic updates

Tech: HTML, CSS, JavaScript, MySQL

EDUCATION

B.Tech in Computer Science & Engineering | Kakatiya University, Kothagudem | 2022–2026 | CGPA: 8.5/10

Intermediate (MPC) | SRM Junior College, Jogipet | 2020–2022 | 7.19/10

CERTIFICATIONS

- Java Full Stack Certificate – Digit Institute, Hitech City (2025)
- Basic Python – Saylor Academy (2025)
- University Websites Certificate – UCE, Kothagudem (2026)
- Communication & Soft Skills – UNXT, Infosys Foundation
